

EXCELLENT DEGREASER AND CLEANER: Tri-Pow'r® HD aerosol is a pleasantly scented heavy duty foaming alkaline cleaner that lifts dirt as it emulsifies grease and grime. Formulated for maximum versatility and metal protection when used as directed. For use with air cooled condensers and evaporators and other applicable surfaces. Ideal for microchannel coils.

DIRECTIONS FOR USE: This product must be used in accordance to the following directions by HVACR professionals only.

Always wear protective eyewear and gloves when using any chemical. Turn off or disconnect power to equipment being serviced. Remove any heavy or matted soils that can easily be dislodged by hand. Do not spray into electrical components. SHAKE WELL before using.

Remove cap and point toward outdoor coil or other surface to be cleaned. Wait for 5-10 minutes for foam to liquefy and remove grease and grime within the coil. Rinse the coil with water.

INDOOR COIL: Tri-Pow'r® HD aerosol can be used with the Talon Aerosol Wand (4776-0). Apply, wait 5-10 minutes and rinse with water spray bottle or immediately resume system operation and allow condensate generated to promptly self-rinse coil.

IDEAL TO USE IN AND AROUND FOOD PROCESSING AREAS: Tri-Pow'r® HD is acceptable for use as a general cleaner on surfaces in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products around the area where the product will be used.
